

## HOW TO SHARE SCREEN WITH BLACKBOARD COLLABORATE

Black Board Collaborate is a free platform used by the University of València during the online conferences of the 16th ISELV. You don't need to download any program to be able to use it, from the Organizing Committee we will send you a link for each session, so you just need to click on it to enter the conferences.

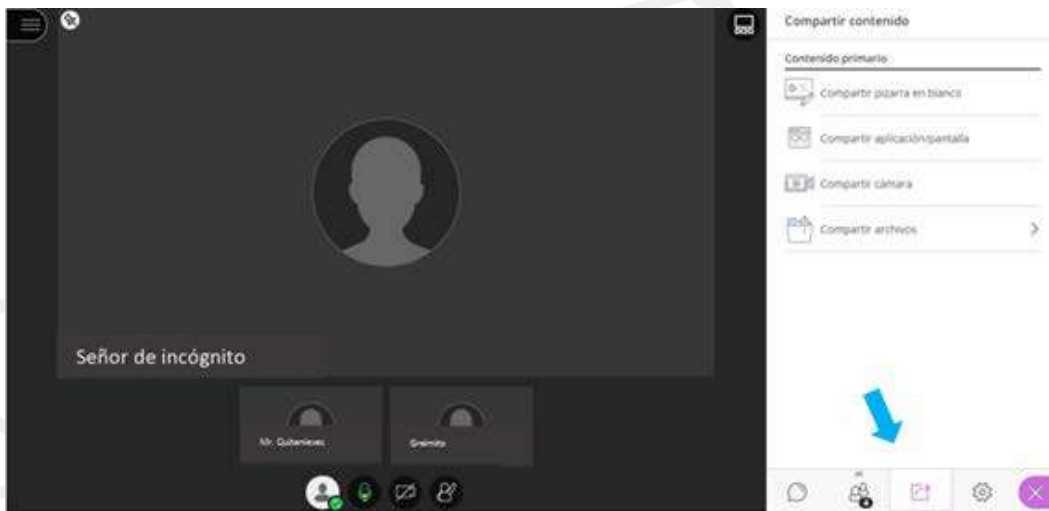

**STEP 1.** Turn on the microphone and the camera by click in the microphone and camera buttons. If you are going to present your work online, please be sure that the quality image is good and that your Internet connection is stable enough.

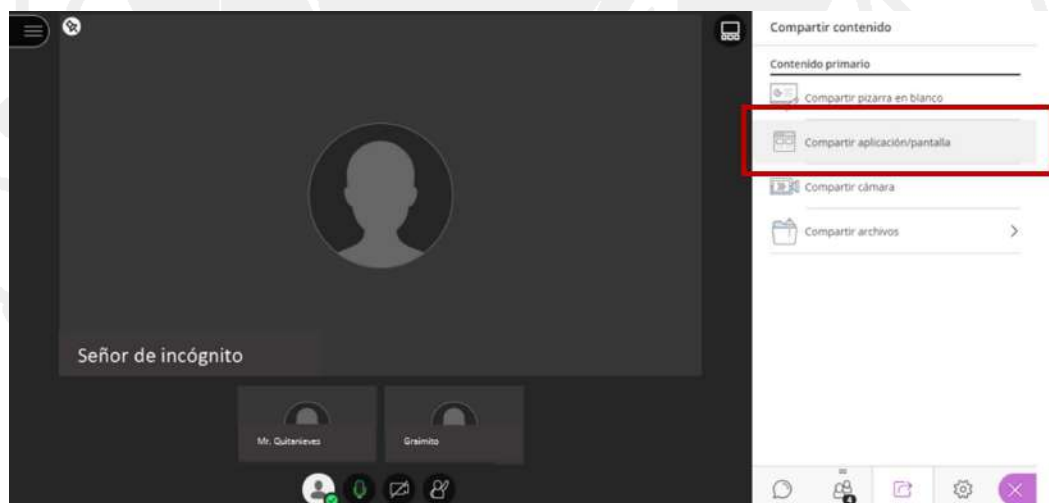

**STEP 2.** Click on the right bottom button to open the BBC options.

**STEP 3.** Click on the square symbol with the arrow. This will open up a second menu.

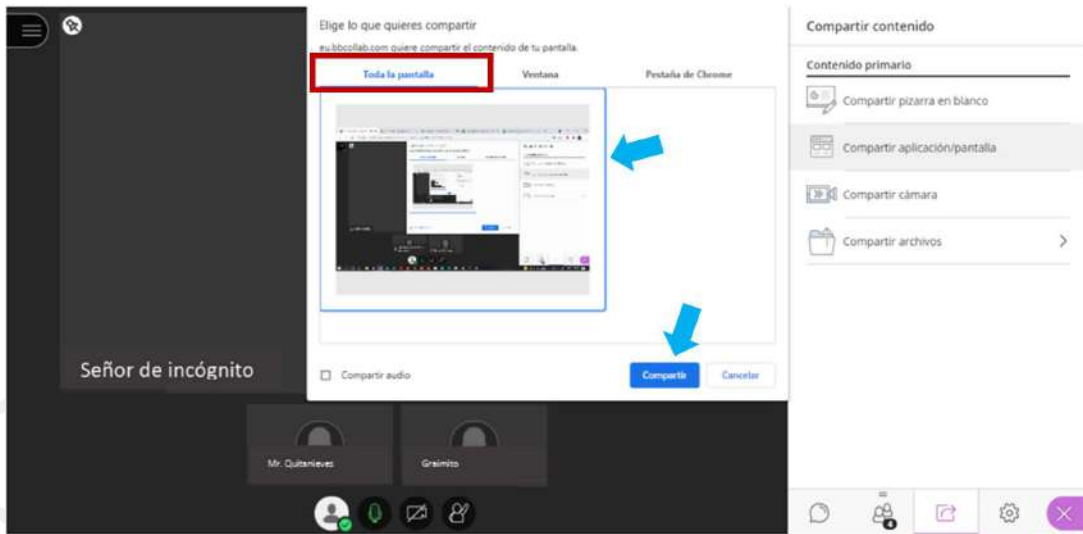

**STEP 4.** Select the option "Share application/screen".

**STEP 5.** Once selected this option, a new window will pop up with several options to share. Select the option "Whole screen" and then click on the button "Share". **IMPORTANT:** if you don't select any option, the button SHARE will not be available. To know which of the options you have selected, it will be surrounded by a blue outline.

## HOW TO SHARE SCREEN WITH BLACKBOARD COLLABORATE

**STEP 6.** Once your presentation has finish, you need to click on the upper right corner button to stop sharing your screen.
